

SANDE Y DÍAZ, S.L.: QUALITY AND ENVIRONMENTAL POLICY

SANDE Y DIAZ, S. L, a company dedicated to marketing, maintenance and installation of industrial equipment related to water technologies, in our desire to continue to improve every day, always with maximum respect for the environment, we have implemented an Integrated Management System for Quality and Environment based on the ISO 9001:2008 and ISO 14001:2004. As a sign of our commitment, we wrote and published our Quality and Environment Policy, stating the principles and objectives that govern our activity:

- Understand, analyze and meet the needs and expectations of our customers.
- To prevent the causes that may lead to possible nonconformity.
- Enhance the effectiveness of human and technological resources to ensure the quality of our work.
- Continuously improve the quality of our services and our attitude to the environmental impacts generated by our business.
- Prevent pollution that could generate the activity of our company.
- Optimization of exhaustible natural resources, with special emphasis on the reuse of inert waste, as well as proper management of other waste.
- Comply with current legislation applicable, as well as respecting adopted voluntary agreements or requirements from our customers.
- Promote Quality Management and Continuous Improvement to all staff, at all levels and in all processes of the Company.

This policy affects and is the responsibility of each and every one of the members of the organization and serves as a framework for establishing quality objectives. So the Direction requires all staff to comply with this commitment, every participating with his liability according to their position in the organization of the company. For this it is communicated throughout the company for their knowledge, understanding and compliance and is available to any person or entity requesting it. In addition, we review, analyzing and updating it for continuing suitability.
